

KRUMBS OF KUMFORT.

GATHERED TOGETHER FOR FUTURE CAREFUL CONSIDERATION.

Opinions as to the Results of the Recent Trial Have been Cautiously Discussed— "What Will the Result Be?"

Tammany will be the President.

Things are rosy and harmonious in the Democratic household just now, but wait until the division of the spoils begins.

Viewing the situation calmly and in the light of recent events, we are persuaded that in a good many states the Republican party had too many leaders and too few followers.

One thing that casts a threatening shadow over the Democratic rejoicing is the fact that Thomas B. Reed of Maine will be on hand in the next Congress to have fun with the boys.

By all means let Mr. Cleveland arrange for an extra session of Congress next March as some of the Democratic organs suggest. If we are to have an era of Trial smashing and bank wrecking the sooner it is over the better.

E. D. Jones & Sons & Co. of Pittsfield, Mass., received a dispatch canceling an order for machinery for a \$400,000 paper mill in New York state, for which the foundations are already laid. The projectors may they have decided not to go on, owing to the result of the election.

The first vote ever cast at Bellevue under the secret law was lost. Fred Knaw was Clerk of Election, and desiring to enjoy distinction, hurriedly took a blank ballot, stepped into the booth, folded the ballot and deposited it in the box without stamping it. It appears that he didn't "know" everything after all.

Nothing like this in Protected America. The Right Hon. Henry H. Fowler, President of the Local Government Board of London, has prepared a circular advising the local authorities to modify the distress among the unemployed workmen by making roads, constructing sewers and cleaning streets, paying the men employed to do the work regular day's wages. The authorities, he says, should aim to be useful to labor and avoid making paupers of those out of work.

No Nation that is being plundered by Tariff robbers, as Democrats say this, could produce such an outpouring of the people and such a display of greatness and progress and prosperity as was witnessed at Chicago at the dedication of the World's Fair buildings, when it is remembered that three-fourths of the aggregate wealth of this country has been accumulated since the Republican party came into power in 1860. It would seem that Republican Protection laws have been a great thing for the country.

Isaac Baker of Marion, Ind., tells a story familiar to all old Republicans. He says: "I am only a middle aged man, but I can remember Free-trade times and how things were at my parents' home. About everything we had was made across the sea. My early recollection of crockery, the plates and other dishes, with the English iron surrounded by blue on the bottom of all, is quite vivid. The knives and forks and pocket knives, and, in fact, all cutlery was made across the sea in Sheffield, England. The locks upon the doors had the English lion and the unicorn stamped upon them; the watches were from England and were largely supplied with articles from England with the English lion stamped upon them. The glassware was made across the sea, and plate glass was entirely imported. In 1861 the Republican party changed this. We quit making millions in England and began making the American people prosperous."

PUBLIC LEADER

FIRST YEAR. MAYSVILLE, KY., WEDNESDAY, NOVEMBER 16, 1892. ONE CENT.

PERSONAL POINTS.

Hon. Thomas H. Payator is in Louisville.

The registration of voters for the January election on Monday and yesterday resulted in the registering of 1,406 names or 141 less than the registration of October 4th, when the total was 1,550.

There was a falling off in every Ward in the city, but more noticeably in the First, Second and Third.

The knowledge that no one can vote unless his poll tax is paid does not seem to be a business to get their names on the delinquent list every year. Many traveling men were also absent from home and as there is no supplementary registration day unless one is specified by Council these will probably be deprived of their vote.

Through an error the place of registration in the Second Ward was closed yesterday evening at 9 o'clock. The law provides that the places for registration shall be kept open until 7 p. m.

This oversight may cause serious trouble, as anyone who wanted to register and could not on account of the registering place being closed previous to the time authorized by the law, can have the registration declared illegal. It is understood that several were thus shut out.

The following is the registration by Wards:

First.....173
Second.....174
Third.....175
Fourth.....176
Fifth.....177
Sixth.....178
Total.....1,406

CHRISTIANITY shows are occupying much attention just now.

H. C. ARMSTRONG, prominent wholesale grocer of Louisville is dead.

The Democrats of Glasgow will not hold their jollification until the 35th.

W. H. MILLS, Senior Bishop of the Colored M. E. Church, died in Louisville, aged 65.

T. W. BROMLEY of Winchester lost a wedge of \$300 while seeing the sights in Cincinnati.

It is "Allegheny" in Pennsylvania, "Alleghany" in Virginia, and "Allegrany" in New York.

ALBERT BOER, wanted at Warsaw for fobbing eight dwellings, was arrested on a shanty-boat at Louisville.

The next meeting of the Kentucky Baptist Association will be held at Lebanon on the third Saturday in October.

MRS. C. B. HUNT, third wife of Colonel C. B. Hunt of the First Regiment, a soldier of two wars, died in Cincinnati Monday.

REGULAR meeting of M. C. Hutchins Camp No. 2, S. of V., this evening at 7 o'clock. All members are requested to be present. J. L. TOWN, Captain.

THREE weeks from Friday Dennis McCarthy, Stephen Hite, Nelson Lewis and Grant Thomas, four murderers, will be hanged from the same scaffold at Louisville.

In Christian county Antony Blye was shot and killed by John Jefford. Both colored. It was an old grudge, growing out of a cutting match between the sons of the men.

FRESH COAT at Wormald's Elevators. Orders left at office, corner Third and Wall street, or at the Elevators on Limestone street, will receive prompt attention. Terms cash.

The first steel gun, properly so-called, built in this country was constructed for experimental purposes at the South Boston Iron Works in 1882. The first steel guns made for actual use were constructed at the Washington Navy Yard in 1884.

CAPTAIN J. T. RITCHIE, proprietor of the Fifth Avenue Hotel, Louisville, has brought suit against J. G. Michael, charging him with obtaining money under false pretenses. He told the Captain some lots in Los Angeles that didn't belong to him.

A NEW stamp is to be issued in Great Britain of the value of fourpence halfpenny—nine cents—to be available for all postal, telegraph and revenue purposes. It will be the first stamp issued of this value, and its issuance is called for by the new features of telegraph and parcel post business.

AN old man by the name of Alex. True from Dover fell from the C. and O. trestle work across the Limestone creek bottom late yesterday afternoon and sustained some severe bruises. No one saw him fall but his groans attracted people passing on the street near by, and he was soon rescued from his uncomfortable position.

A SINGULAR fashion has just appeared, that of carrying diamonds in the teeth. This strange whim had its origin with a singer in a music hall, who sought to dazzle her admirers every time she opened her mouth. A diamond of small size is fixed in a portion of a false tooth. A corresponding part of the real tooth is out and the piece containing the diamond fixed in the cavity.

THE CITY REGISTRATION.

Considerable Falling Off From that of October 4th—Mistake to Record If Hard.

The registration of voters for the January election on Monday and yesterday resulted in the registering of 1,406 names or 141 less than the registration of October 4th, when the total was 1,550.

There was a falling off in every Ward in the city, but more noticeably in the First, Second and Third.

The knowledge that no one can vote unless his poll tax is paid does not seem to be a business to get their names on the delinquent list every year. Many traveling men were also absent from home and as there is no supplementary registration day unless one is specified by Council these will probably be deprived of their vote.

Through an error the place of registration in the Second Ward was closed yesterday evening at 9 o'clock. The law provides that the places for registration shall be kept open until 7 p. m.

This oversight may cause serious trouble, as anyone who wanted to register and could not on account of the registering place being closed previous to the time authorized by the law, can have the registration declared illegal. It is understood that several were thus shut out.

The following is the registration by Wards:

First.....173
Second.....174
Third.....175
Fourth.....176
Fifth.....177
Sixth.....178
Total.....1,406

A corresponding part of the real tooth is out and the piece containing the diamond fixed in the cavity.

A DEMOCRATIC DAY.

GOVERNOR'S VICTORY AND OTHER VICTORIES CELEBRATED YESTERDAY.

The Weather was Disagreeable and the Parade not up to Expectations—The Showing is Over and Now for "Them Sifters."

Yesterday was devoted to Democracy in Maysville.

It was their turn to jollyify and they all seemed to be happy.

Had the weather been more propitious the demonstration would no doubt have been on a larger and grander scale. It was the wish of everyone, Republicans as well as Democrats, that the victorious party would be able to celebrate to their hearts' content, and expressions of displeasure were heard on every side when the steady rain set in on Monday evening which made it sure that walking in the parade would be very disagreeable if not altogether impossible.

Taking all circumstances into consideration it was probably the best display that could be made, and even if it did not come up to public expectations it is not THE LEADER'S political policy to fight after the war is over. Had yesterday's jubilee been a Democratic rally prior to the election it might have been very different. It was a Democratic rally, but it was a Democratic rally, and it was a Democratic rally.

The rural Democracy were on hand in goodly numbers, though the threatening weather doubtless kept their ranks thin.

The procession formed and started in an orderly manner, and the best of humor prevailed all through the line of march, both those who participated and the crowds that lined the sidewalks entering into the frolic. Some of the transparencies and cartoons were good, and others were, to use a figurative expression, a little "far fetched."

The parade started from the corner of Second and Limestone streets about 2:30 p. m., and moved West on Second to Wall, to Third and East on Third, some to a destination and some to another, but all ending in a general break-up. The route previously laid out was not strictly followed. A short time only was consumed in parading.

Grand Marshal G. S. Wall was at the head of the procession, followed by his staff, consisting of several prominent Democrats, and ex-Government officials.

There came the rank and file of the party, politicians of high and low degree. Hauck's Band and a juvenile drum corps furnished the music.

The cartoons were liberally dispersed all along the line. Most of them were directed at the present Republican officials whose places are so devoutly coveted.

Other Republican leaders were extensively advertised and the candidates in this local contest were handsomely remembered.

Among those which were most conspicuous and attracted the most attention were the following:

"I fear the vote of the Third and Fourth Wards in my inside pocket, 'don't you know?'" *Edw. K. Wood.*

"Who will ride Tom Forman's gray mare now?"

"Once home, to your Pa, O. W. Dye."

"Oh if I can get my old place, (Judge Holt) can get it for me?" *Phil Sumner.*

"If Harrison is elected I will name the boys." *Billy Cox.*

"Who dares spend any money at the Tollgate Precinct?" *Edw. Ort.*

"Goodbye, boys! I'm going home to Lewis and Clark." *J. D. Rummage.*

"I'm going to work on the quarry for Pa." *Goodyear, Chas. J. Woodworth.*

"Where were you When the Cyclone Struck?" *E. J. Davis.*

"They took my boys and I am blue! Now they will take me!" *C. B. Outlen.*

"I don't want Jim Owens (can't beat anybody)." *C. H. Shelden.*

"If any Republican hasn't voted, bring up my carriage and bring me." *George C. Cox.*

"Whose boy will skin rabbits now?" *J. C. L.*

Three Cops that can't crow—Willie, George and Grady."

As will be seen the caricaturist evidently thought a large part of the laugh was on the Coxes.

Postmaster Davis and Gauger Douglas P. Ort, Chairman of the County Republican Committee, were also conspicuous objects for the joker.

J. David Dye, Pat Sammons, J. D. Rummage, J. G. Wadsworth, Colonel Bierbower and all the boys in the service were remembered, and if anyone was left out his pardon is asked.

In reference to Colonel Forman the point of the joke is hard to see. The Colonel says it is all right only his gray mare is a gelding.

The cartoon showing Dave Dye in a tobacco patch was very realistic.

It was in the picture of Jack Wadsworth, alone in the wilds of Glynnville, that the artist displayed the pathetic nature of his genius.

The painter's conception of the likeness of Doug Ort and Pat Sammons was not flattering to either gentleman.

There is one thing certain, no nicer set of gentlemen ever represented the Government in this section and no clearer records were ever left behind than their successors will find when they step down and out.

The racket on the streets last night was something awful. Fireworks of all kinds abounded and the tin-horn brigade was out in full force. The tumult was kept up until after 9 o'clock when the crowds on the streets gradually thinned out until no one was left to glorify Cleveland except the believers in the good old Democratic way of celebrating. This element had more fun than anybody while it lasted, but oh, what a difference this morning.

The vote is over, the count is over, and the shout is over, in fact it is all over but the clamor for the spoils. The office seekers now have a clear field for operations.

The Citizens Coal Company has just received a fresh supply of coal at the river, Commerce street, Fifth Ward.

CART. J. HAMILTON, Agent.

New Cabinet Position.

Postmaster Davis has received from Hon. Albert A. Pope of Boston a copy of a petition that is being prepared for signatures, asking of Congress the creation of a Department of Highways, to be independent of the other Cabinet positions with a ministerial head, the object of which shall be the promotion of the "art of constructing and maintaining roads," with a branch for instruction in highway engineering. Besides the Road Department of the Government it is proposed to establish an Institute of Road Engineering and a permanent Road Exhibit in the city of Washington, and a comprehensive system of road construction and maintenance at the World's Columbian Exposition.

The late Duke of Marlborough carried \$1,000,000 life insurance in favor of his American wife.

Dr. J. A. Reed has sold to O. H. P. Thomas his residence on West Third street for \$4,500.

NEGOTIATIONS are pending for a consolidation of the leased oil interests of the United States.

It is said that Senator David B. Hill of New York will soon be married to a widow of Atlanta, Ga.

BRIAR W. H. MILLS of the colored M. E. Church died Monday at his home in Louisville, aged 65 years.

PRINCETON has a magnificent new Presbyterian Church which was dedicated with imposing ceremonies.

TWENTY-SEVEN prisoners were lodged in the Frankfort Penitentiary yesterday. They were all from Louisville.

POLITICAL excitement in Paris is at fever heat and the general belief is that the Ministry will be overthrown.

COLONEL L. E. CASEY, The Oregon Commemorative has been suggested as a good Democrat for the Covington Post-office.

ROBERT HENDRICKS died at Esterline from the result of a knife wound given by Charles Roche in an election row. Roche escaped.

JAMES HESART, formerly connected with the Phoenix Bank at Lexington, has become violently insane and placed in the Eastern Kentucky Asylum.

CHARLES F. FERRY, Labor Commissioner of New York, who was arrested by Democratic politicians on the charge of destroying public documents, has been discharged.

IN SESSION.

Grand Master Powderly Opens the Annual Meeting.

"White Ribbons" Address the Knights in a Letter From Miss Willard.

Equal Pay for Women Who Do Equal Work With Men—Total Abstinence in the Individual and Suppression of Big-city-Brotherhood of the Fair.

St. Louis, Nov. 15.—After losing a couple of hours yesterday morning in searching for a suitable place to hold their convention, the Knights of Labor procured desirable quarters at Waltham Hall, corner of Tenth street and Franklin avenue, and about noon the sixteenth annual meeting of the general assembly went into session.

The convention was called to order by Grand Master Workmen T. V. Powderly, and the committee on credentials adjourned to present its report.

At the afternoon session committees were appointed on distribution, appeals and grievances, state of the order, cooperation and secret work, a letter of congratulation was received from Eugene V. Debs, late secretary of the Trainmen's Brotherhood. The following letter from Miss Frances Willard was also received:

"EVANSTON, Ill., Nov. 15, 1892. "To my dear brothers and sisters: You and your great leader have always manifested the utmost good will toward the 'white ribbons' and I am glad to see a letter of greeting by one of our distinguished leaders, Mrs. F. A. Ingalls, national superintendent of the W. C. T. U., whose home is in St. Louis, who will speak to you on our behalf. Mrs. Ingalls will ask you to stand by the great cause of equal work for women. We do equal work with men, for better or worse, total abstinence in the individual and the suppression of bigotry, also, for the Sunday observance of the Lord's day, that the workmen may not despoil himself of his one day of freedom, individuality and home life."

The hope that you have given me an uncertain sound as to the importance of the reform elements of this country uniting in a political movement that shall reach men, enfranchise women, protect the home and redeem the state.

"We are with you in all your work and ways, we believe your fraternal like ours, are set toward the better future, that you are Christians and patriots, and that nothing better could happen the nation than that you should come to power. We invite you to send fraternal delegates to the World's W. C. T. U. convention, the first week of the World's fair, and the national W. C. T. U. convention also at the World's fair November 16."

The remainder of the afternoon was spent in talking over minor matters, and an adjournment was taken until 10 a. m. During the afternoon a circular letter was distributed by M. J. Bishop, state secretary for Massachusetts, setting forth that nearly all objections to and fights upon the order originate in Boston. Furthermore, that that city has never been honored by the holding of a session of the order there, and was freely distributed by M. J. Bishop, state secretary for Massachusetts, setting forth that nearly all objections to and fights upon the order originate in Boston. Furthermore, that that city has never been honored by the holding of a session of the order there, and was freely distributed by M. J. Bishop, state secretary for Massachusetts, setting forth that nearly all objections to and fights upon the order originate in Boston. Furthermore, that that city has never been honored by the holding of a session of the order there, and was freely distributed by M. J. A Word to Republicans.

The hope of the party lies in the expansion of a stalwart Republican press. The Republican who reads or otherwise helps to support a Democratic paper is a traitor to the cause of his party.

THE adherence of the educated and intelligent young men of the Nation to Republican principles is indispensable to Republican victory in 1892.

Why Young Men Should Republican League. The Republican League has done magnificent work in attracting a host of bright and energetic young men to the ranks of Protection.

THE finding of an unknown man floating in the Delaware river at Philadelphia finally led to the discovery of a most greivous trade practiced by one of the discoverers of the body.

THE work of education and organization for the next Presidential campaign should begin at once and be carried on with system and thoroughness.

Few young men appreciate the tremendous significance of the Republican record for the past thirty-four years. They comprehend more or less vaguely that the Republican party saved the Nation from dissolution, crushed human slavery, restored the goodness and credit of the country and enacted legislation which has resulted in an industrial development in the world's annals.

What they do not realize is the all important fact that these grand achievements were accomplished by the practical application of the very principles held by the Republican party to-day.

THE Democratic, whose specious pledges have won so many of their votes, is an old foe with a new face, whose success is a menace to the property and progress of the Nation not less dangerous than it would have been in 1860 or 1864.

THE Republican has not changed its principles. The faith of LINCOLN and Seward and Grant is still the Republican creed. The economic dogmas of JOHN C. CALHOUN and JEFFERSON DAVIS are still the fundamental beliefs of the Democratic party.

Democratic orators have denied this on the stump and in the Democratic papers have systematically ignored their own platform in their editorial columns. The prompt demand on the part of Democratic organs all over the country for an extra session of Congress and a complete overthrow of the Protective system in accordance with the demands for Free-Trade formulated at Chicago shows the deliberate deception practiced on those voters who supported the Democratic ticket in the belief that a moderate and careful revision of the tariff was all that the Democratic party intended.

To-day the Democratic enterprise the old Southern idea that the best labor in the cheapest labor, that the United States should not manufacture for themselves, but should grow corn and pork and cotton to exchange for European manufactured products. The Democratic party holds that the ideal is a vigorous, united American nationality is a sham, that we should have no navy, no forts, no army, that our flag represents nothing in particular, that we should have the monopolies of Europe to take a mortgage on the South.

CONDENSED NEWS

California's Wholesaler Plant Is Lost. Associated Press. California's wholesale plant is lost. The world long before it began to play much of a part in politics or business, says the Associated Press, the botanical world of San Diego and Monterey a hundred years ago, and his collections are still to be seen at Madrid. Dr. Menzies, whose portfolios are kept at the British Museum, spent several seasons on the coast a few years after Nees. David Douglas, one of the most devoted and successful of botanical explorers, reached the Pacific coast in 1816. Nuttall sent his herbarium to Harvard university, where it is now kept. Pickett, Hartweg, Coulter, and others were in the field. None of them were more typical investigators than the late Dr. C. C. Perry, who first crossed the country with the Mexican boundary commission. At intervals, for forty years after, he was a familiar figure to hunters, prospectors, mountaineers, and all sorts of outdoor people from the Arizona deserts to the Sierran pine forests.

So early were collectors in the region that the universal was the forest fell in Europe over the new plants of the Pacific coast, that many trees of sequoia and other superb conifers were planted in the parks of England, France and Italy long before the discovery of gold. Wealthy Californians, as early as 1858, visiting the mountains of Lutescentia, the popular were the brilliant annuals, flowering shrubs, vines, and trees of their native state. Returning, they offered neighbors to cultivate more of the native plants, but with little effect. In Alameda county, a plain, uneducated man, a native of the Pacific coast, the stock was one of the first persons in all California to make a home garden of wild flowers from field and hill. I remember in my boyhood the passionate devotion that he showed to this pursuit.

"It do be the best land the sun ever shined on," he declared, "for poor folk to have a garden."

BY RAIL TO JERUSALEM. The Whistle of the Locomotive Now Heard in the Holy City. The first locomotive from Jaffa has arrived at Jerusalem, says the London News. In this event we have a new and simple text for the preachers. The associations of the Holy city and its contact with the railway system are connecting locomotives to antiquities. It will be sufficient to excite the wrath of Mr. Euskin, as it must appear to him to be a greater sacrilege than that of the British tourist shelling on Mount Sinai. Letters received from Jerusalem by the Palestine exploration fund, dated on the 29th ult., announce that the locomotive had reached the city the previous day. Trains are not yet running, but the rails have been laid down all along the line, and our Paris correspondent says that the line, which is being made by a French company, will be opened on the 30th of this month. The Jerusalem is unfinished; it will be on the way to the city of the valley of Hinnom, will separate the railway station from the town, and it will thus be about half a mile from the Jaffa gate. Luckily, the temple site, with Gethsemane and the Mount of Olives, is on the opposite side of the town, and will not be much disturbed by the new line of the railway. It should be mentioned that the Wadi Rababeh means "the valley of the Lie." The Arabs will now have to call it-if Arabic words can be found for the sentence-"The Wadi of the Railway Whistle."

CHANCES FOR COLORED FOLKS. Advantages for Them by Settling in the City of Omaha. The colored people seem to have been absorbed successfully in the population of Omaha, where they find opportunities often denied them elsewhere. There are 6,000 negroes in that city. The children attend the public schools, and no discrimination is made against them. In professional and business pursuits negroes are everywhere, and they prosper. In Omaha, according to the Chicago Tribune, there are three lawyers of this race, two physicians and one editor. The candidates for the editor's paper are of both sexes, and, of course, colored. There are three negroes on the police force, and many of them the municipal offices. James S. Bryan is stenographer and secretary in the controller's office. A. W. Parker is an inspector of seals, clerk in the office of the register of deeds, and so on. Many of the mail-carriers are negroes. The candidate for city council in the Third ward is colored. The property of the colored people is valued at \$700,000. The wealthiest is a woman, who is said to be worth \$60,000. There are other fortunes of \$50,000 and \$40,000. The Omaha negroes do not take kindly to labor organizations as a rule, but they are forming and joining clubs and there are several masonic lodges among them. The patriarch of the colony, it might be mentioned, is Father Washington, who is supposed to be 105 years old.

A Substitute for Diamond Dust. The name of carborundum has recently been given to a peculiar manufactured substance intended on account of the peculiar properties which characterize it when thus used, to take the place of diamond dust and boric in the abrasion of hard substances. Singular to say, the product is a compound wholly unlike the substances from which it is derived—that is, in composition it is almost pure carbon, in construction crystalline, and in hardness it is ten, on Mohr's scale, in view of these qualities, it is, to all intents and purposes, measured diamond dust, and, though in color it is slightly darker. Under the microscope many of the crystals appear of a dark green, some of a yellowish green, some of a blue, and some completely colorless. The cost of this material is said to be very moderate.

THE STRANGE REVELATION MADE BY A FLOATING CORPSE. The finding of an unknown man floating in the Delaware river at Philadelphia finally led to the discovery of a most greivous trade practiced by one of the discoverers of the body. The doctor, says the Associated Press, that city, bore upon his arm some perfect specimens of the tattooer's art, and Jacob Zirzachi, a Syrian, who assisted him in the recovery of the body, applied for that portion of the cuticle of the left arm which bore an admirable representation of the crucifixion. In the representation of this piece of work the artist showed a master hand. Every detail was perfect.

THIS was what most attracted the attention of Zirzachi, and he begged and pleaded with the keeper of the morgue to give him the strip of cuticle covering the crucifixion. He offered ten dollars for it, and when told that he could not have it without an order from the coroner he stormed and raved, declaring it to be rightfully his anyway, because he had assisted in the recovery of the body. The keeper finally told him to call at the morgue again, and that he would in the meantime speak to the coroner in regard to the matter.

HE being pilled with questions as to what he intended to do with the strip of tattooed cuticle after he got it, Zirzachi said that in Morocco, where he had recovered the body, he had seen that there were many dealers in curio who would give him from ten to one hundred dollars for such things, according to the artistic value of the picture. He had made hundreds of dollars by trading with these merchants, and had learned the secret of properly preparing the skin for framing.

THE cuticle is first carefully dried and tanned and is then treated with a peculiar solution of poisonous drugs, which has the effect of bringing into bold relief the pigment used in the tattooing. It is afterward pressed between two plates of glass and is allowed to stand for a month or so, after which it is framed and placed on sale. Many prominent citizens of the larger cities of the coast, the Syrian states, had the walls of their houses decorated with these objects.

IN some parts of Arabia, according to his statement, the shells of certain turtles always had their own portraits tattooed upon their backs. After the death of one of these turtles bearing the portrait of a famous man, the owners prepared according to the usual process and reverently carried from house to house, where they were shown and sold for the price of the animal. The owner of the dead man in the arm of the drowned man at the morgue would be worth fifty to sixty dollars to him.

THE adherence of the educated and intelligent young men of the Nation to Republican principles is indispensable to Republican victory in 1892. Why Young Men Should Republican League. The Republican League has done magnificent work in attracting a host of bright and energetic young men to the ranks of Protection.
